Subject: French Immersion Camp in Québec City

Dear colleagues,

We would like to take advantage of your presence at the International Camping Congress to introduce our new French Immersion Program for youth aged 13 to 16, a joint collaboration between the *Centre de plein air le Saisonnier* and Ross & Sheehan.

In response to the considerable interest in the French language demonstrated by youths from across Canada, the United States and abroad, we now offer a unique French Immersion Program package in the heart of the oldest and most enchanting francophone city in North America. Campers will experience all the highlights of a city brimming with history and culture, its many attractions and points of interest, and benefit from our extensive experience in the camping and language industry. They can look forward to a professional, entertaining, and safe immersion program.

We invite you to browse through our information package and forward this information to your local partners.

Please feel free to contact us for further information.

We wish you a most enjoyable and rewarding International Camping Congress.
